

Diclomac-MR Tablets (BLISTER)

Diclomac-MR Tablets combine diclofenac sodium and chlorzoxazone for a dual-action approach, providing anti-inflammatory and muscle relaxant effects for the relief of pain and discomfort.

Dosage Form

Tablet

Route of Administration

Oral

Composition

- Diclofenac Sodium I.P. 50 mg
- Chlorzoxazone U.S.P. 500 mg

Indications

Diclomac-MR tablet helps to relieve pain and muscle spasms that occur due to strains, sprains, and muscle injuries.

Storage

Store in a dry place, temperature not exceeding 30°C. Protect from light.

Precautions

Use with caution in patients with liver, kidney, or heart disease. Avoid alcohol consumption while taking this medicine, as it may increase the risk of stomach irritation and liver-related side effects. This medication may cause dizziness or drowsiness; avoid driving or operating machinery if affected. Do not exceed the recommended dosage and use under medical supervision.

Presentation

20x2x10 Tablets
