

Tor-Spas Tablets (BLISTER)

Dicyclomine is an antispasmodic, having direct intestinal and other smooth muscle relaxant activity. It belongs to a class of medications called anticholinergics. Paracetamol is a Non-steroidal anti-inflammatory drug, clinically proven analgesic/antipyretic. Paracetamol is equal to aspirin in analgesic and antipyretic effectiveness and it is unlikely to produce many of the side effects associated with aspirin and aspirin-containing products.

Dosage Form

Tablets

Route of Administration

Oral

Composition

Each uncoated tablet contains:

- Dicyclomine Hydrochloride I.P. 20 mg
- Paracetamol I.P. 325 mg
- Excipients q.s.

Indications

Indicated for spasmodic dysmenorrhoea and gastrointestinal distress associated with painful muscle spasms or cramping.

Storage

Store in a cool place. Protect from direct sunlight.

Precautions

Do not exceed the prescribed dose. Overdosage of paracetamol can cause serious liver damage. Avoid use in patients with hypersensitivity to any of the ingredients.

Presentation

20x15 tablets
